CubiCasa: Getting Started

Floor plans for your listings — free as an NWWMLS member.

What this is

RANWW and NWWMLS have partnered with CubiCasa to bring floor plans to your listings — free as an NWWMLS member. Scan a home with your phone in about 5–10 minutes and you get a professional floor plan with room dimensions, ready for your listing.

There's nothing to add to your dues and nothing new to learn. Set up your account, download the app, and start scanning.

Launch date: Wednesday, October 21, 2026. **Kickoff webinar:** Wednesday, October 21, 2026, at 10:00 a.m. Central, hosted by Tom Shively and Amber Engelby of CubiCasa.

Always use the **account link above** — it's tied to NWWMLS and unlocks your member benefits. Don't use CubiCasa's general signup page.

Set up your account

1. **Create your account.** Use the account link above with your work email and a password.
2. **Choose your role and your MLS.** Pick the agent / real estate option and select the Northwestern Wisconsin MLS (NWWMLS) so your member benefits apply.
3. **Download the CubiCasa app.** Free for iPhone and Android.
4. **Scan the property.** Start a scan and walk the home. CubiCasa guides you the whole way — most homes take about 5–10 minutes.
5. **Upload and order.** Upload from the home, or later from the office.
6. **Get your floor plan.** Plans arrive in about 6–24 hours, with downloadable files and an interactive hosted link to share.
7. **Use it in your marketing.** Add the plan to your listing, share the hosted link, and use it in social posts and open house materials.

Quick answers

What does it cost? Nothing to get started as an NWWMLS member. CubiCasa's NWWMLS signup page also includes a welcome gift: your first PLUS order free. Optional upgrades are billed by CubiCasa.

How long does it take? About 5–10 minutes to scan; plans arrive in about 6–24 hours. CubiCasa also offers a paid 6-hour turnaround.

What do I need? A smartphone (iPhone or Android) and the free app. Newer iPhones and iPads with LiDAR scan a little more accurately, but they aren't required.

How accurate are the plans? CubiCasa publishes an average dimensional accuracy of 95–97%, and 97% for LiDAR devices.

Do I have to scan it myself? No. You can hire a local photographer through the CubiCasa Photographer Marketplace.

Can I share the plan with buyers and sellers? Yes. Every order includes JPG, PNG, and SVG files plus an interactive hosted floor plan link.
